

Omni 3210

Simply Remarkable...and Remarkably Simple

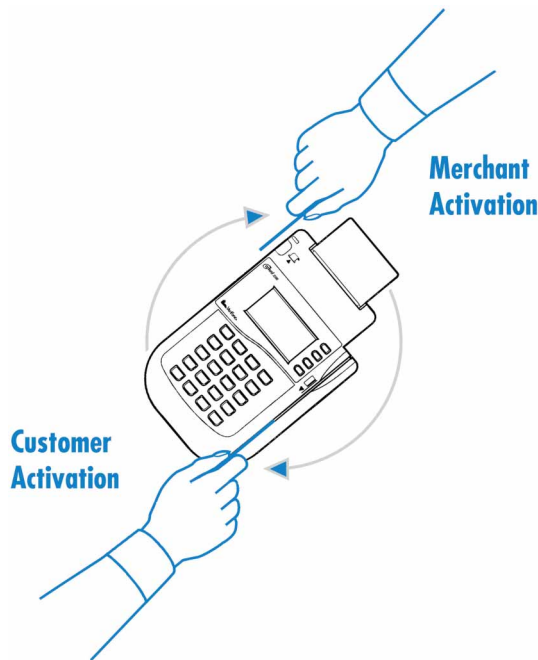

A simple choice...because the **VeriFone Omni 3210** adds an internal PINpad for debit, EBT and other PIN-based transactions to the world's fastest-selling payment terminal—the Omni 3200. Of course, with the Omni 3210 you also get virtually everything you need in a compact, simple-to-use countertop device: intuitive ATM-style interface, integrated thermal printer, triple-track mag-stripe card reader, SoftPay e-payment software configured for your business, advanced fraud protection features, and the industry's best warranty. In short—you simply can't find a better terminal for the money.

Omni 3210

Expanded E-payment Capabilities

- Internal PINpad provides complete e-payment capabilities in a single terminal.
- Integrated, high-speed, graphics-capable thermal printer is quick and quiet, breezing through receipts and reports at up to 12.5 lines per second.
- Advanced, triple-track card reader accepts all magnetic-stripe cards, including drivers' licenses.
- Powerful graphics-handling capabilities of both the display and printer enable you to quickly render graphical fonts and character-based languages.
- Powered by SoftPay software, which accommodates a broad spectrum of merchant requirements.
- Supports a wide range of VeriFone peripherals, including check readers, bar-code wands and smart card readers.

Simple to Install...Simpler to Use

- Stylish, compact design saves valuable counter space.
- Intuitive ATM-style interface minimizes training and reduces clerk errors.
- Large, backlit display is easy to read under almost any lighting conditions. Oversize menu prompts, graphical support and split-screen capabilities add to the versatility.
- Integrated printer eliminates need for separate power outlet and extra cabling.
- Printer's covered paper path reduces time-consuming jams.
- Optional swivel stand lets terminal function as a clerk-facing or customer-entry device.

The Omni 3210 is an affordable, easy-to-use payment terminal that includes an internal PINpad, built-in thermal printer and mag-stripe card reader, in a surprisingly compact design.

An Unsurpassed Investment

- Durable LCD display and rubber keys stand up to the heaviest usage.
- Two telephone ports eliminate the need for a second line.
- Fraud protection supported by sophisticated tamper-resistant features minimizes security risks.
- Five-year terminal/one-year printer and swivel stand warranty protects your investment.
- From VeriFone—the world's leader in e-payment.
